

Bryandale

Primary School Parent's Association

The Bryandale Primary School Parent's Association's core focus is arranging events and fundraisers during the school year to uplift and unite our children & parent's school experience. In addition, another important role includes the management of the Lost Property department as well as our social media Facebook group specifically designed for Bryandale parents.

For many of us, the easiest way to get involved is through a Parents Association, so we welcome your involvement and encourage you to become a member. Participation is voluntary and we meet monthly, as per term planner, to discuss and brainstorm events.
